SyberWorks e-Learning Podcast Discusses Learning Management Systems Used in Distributor-Modeled Training

Waltham, Massachusetts –November 16, 2009

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System (LMS) industry, today announces the next episode in their e-Learning Podcast Series: *"Learning Management Systems Used in Distributor-Modeled Training."*

Dave Boggs, CEO of SyberWorks, states:

> *"Today's podcast is an interview with Steve Pena, Senior Implementation Consultant at SyberWorks. In this edition, Steve discusses his latest article, ""Distributor-Modeled" Training." Steve looks at learning management systems configuration and deployment in distributor-oriented organizations. Mary Kay Lofurno, Director of Marketing at SyberWorks, narrates the series."*

About the SyberWorks e-Learning Podcast Series

Each month, the SyberWorks e-Learning Podcast Series discusses helpful and influential topics in e-Learning, the Learning Management Systems industry, custom online training development, instructional design, performance management, and talent management. The SyberWorks e-Learning Podcast Series is produced by SyberWorks, Inc., as a free service for professionals in the e-Learning and Learning Management System industries.

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of

GSA

training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization's needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
