

The SyberWorks e-Learning Podcast Looks at Creating Online Training with Live Web Cams and Augmented Reality

Waltham, Massachusetts –May 11, 2010

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System industry, today announces the next episode in their e-Learning Podcast Series: *“Developing Engaging Online Training with Live Web Cams and Augmented Reality.”*

Dave Boggs, CEO of SyberWorks, states:

“Today’s podcast is an interview with Dave Powell, Documentation Manager at SyberWorks on his most recent articles where he discusses the use of live web cams and augmented reality applications in e-learning development to help engage the learner. Mary Kay Lofurno, Director of Marketing at SyberWorks, narrates the series.”

The transcript is located at http://syberworks.com/elpodcast43_transcript.htm. This press release can be found at http://syberworks.com/pr_epodcast43.htm.

About the Author

Dave Powell is Documentation Manager for SyberWorks Inc., a privately-held supplier of e-Learning software and training. For the past 15 years, he has written award-winning marketing collateral and user documentation for hardware/software companies like PictureTel, 3Com, Philips Medical Systems, Polaroid, and SyberWorks. Prior to that, he edited and wrote for publications like Computerworld, Infosecurity News, Networking Management, Digital Design, LightWave, Popular Computing, Harvard Business Review, and Leaders. (During that time, he also served as an author and Editorial Advisor for Sesame Street.).

About the SyberWorks e-Learning Podcast Series

Each month, the SyberWorks e-Learning Podcast Series discusses helpful and influential topics in e-Learning, the Learning Management Systems industry, custom online training development, instructional design, performance management, and talent management. The SyberWorks e-Learning Podcast Series is produced by SyberWorks, Inc., as a free service for professionals in the e-Learning and Learning Management System industries.

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your

organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization's needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
