

SyberWorks announces a new article available in its Media Center: *“Options for Configuring Learning Management System (LMS) Campuses”*

Waltham, Massachusetts –April 28, 2010

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System (LMS) industry, today announces an article available in the SyberWorks Online Media Center: *“Options for Configuring Learning Management System (LMS) Campuses”* by Steve Pena, Senior Instructional Designer and Implementation Specialist at SyberWorks, Inc.

Mary Kay Lofurno, Marketing Director at SyberWorks, states:

“This article looks at various options for learning management system campus configuration and provides a robust blue print for LMS implementation. The article illustrates two LMS set-up structures: the one campus with many sub-campuses and the multi-campus LMS set up.”

The article is located in the SyberWorks Online Media Center at

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization’s needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
