

## SyberWorks announces a new article available in its Media Center: *“SCORM and the Learning Management System (LMS)”*

Waltham, Massachusetts – September 29, 2009

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System (LMS) industry, today announces an article available in the SyberWorks Online Media Center: *“SCORM and the Learning Management System (LMS),”* by Stuart Campbell, Director of Software Engineering at SyberWorks.

Mary Kay Lofurno, Director of Marketing at SyberWorks, states:

***“The article examines the communication flow and calls between the Learning Management System and a course that is SCORM v2.1 compliant. It discusses the manifest, single sco, multiple scos and reviews course installation, initialization, intermediary course communication and finalization calls such as LMSInitialize, LMSGetValue, LMSSetValue, LMSCommit and LMSFinish.”***

The article is located in the SyberWorks Online Media Center at

### About Stuart Campbell

Stuart Campbell is Director of Software Development for SyberWorks, Inc., a privately-held supplier of e-Learning software and training. A native of the United Kingdom, he had previously served as a Principle Software Engineer, Senior Consultant, Senior Software Engineer, and Development Specialist for companies such as Brooks Automation Inc. (Chelmsford, Mass.); Digital Equipment (South Queensferry, U.K.); and Honeywell Control Systems (Motherwell, U.K.). Among his many roles at SyberWorks, he leads the software-development process and helps to build new software releases and update kits.

### The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization’s needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
