SyberWorks LMS e-Learning Implementation Podcast Looks at SCORM and Learning Management System Communication Flows

Waltham, Massachusetts – October 20, 2009

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System (LMS) industry, today announces the next episode in their LMS e-Learning Implementation Podcast Series: "*SCORM and Learning Management System Communication Flows.*"

David Boggs, CEO of SyberWorks, states:

> *"In this episode, Stuart Campbell, Director of Software Engineering at SyberWorks discusses his recent article, 'SCORM and the Learning Management System.' In the article, Stuart diagrams the communication flows between a SCORM course and a Learning Management System."*

Boggs continues, "Stuart sheds light on an important topic in Learning Management and provides critical information for understanding how SCORM courses and a Learning Management System interact with each other." Mary Kay Lofurno, Marketing Director for SyberWorks narrates the series episode.

SyberWorks LMS e-Learning Implementation Podcast Series, Episode #30: "*SCORM and Learning Management System Communication Flows*" http://www.syberworks.com/audio/success31.mp3 is located in the SyberWorks Online Media Center at http://www.syberworks.com/success_podcast.htm in the 'About Us' section of the SyberWorks web site. The transcript is located at http://www.syberworks.com/success31_transcript.htm.

About the Author

A native of the United Kingdom, he had previously served as a Principle Software Engineer, Senior Consultant, Senior Software Engineer, and Development Specialist for companies such as Brooks Automation Inc., Digital Equipment, and Honeywell Control Systems. His areas of expertise include Visual Studio.NET, C#, VB.NET, VB6, VBScript, XML, COBOL, WindowsXP, Windows2000, WindowsNT, VAX/VMS, UNIX, Oracle, SQLServer, Oracle Rdb, Oracle DBMS, and Agile Modeling Methodology.

About The SyberWorks LMS e-Learning Implementation Podcast Series

The SyberWorks LMS e-Learning Podcast Implementation Series looks at actual learning management system (LMS) implementations and e-Learning program rollouts. Developed for busy training and e-Learning professionals, they feature how corporations, governments, and non-profit organizations are using online training to improve performance, instruct employees, increase customer acquisition and retention, and more!

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your

GSA

organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization's needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
