About The SyberWorks LMS e-Learning Implementation Podcast Series

The SyberWorks LMS e-Learning Podcast Implementation Series looks at actual learning management system (LMS) implementations and e-Learning program rollouts. Developed for busy training and e-Learning professionals, they feature how corporations, governments, and non-profit organizations are using online training to improve performance, instruct employees, increase customer acquisition and retention, and more!

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization's needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
